Fontos tudnivalók

- Az utasításokat pontosan kell követni. Csak az utasításban megadott helyre beírt megoldás fogadható el.
- Mindig csak egy megoldást szabad beírni.
- A betűjelek legyenek jól olvashatóak, az esetleges javítások pedig egyértelműek.
- A megadott szószámot nem szabad túllépni. Az összevont alakok egy szónak számítanak (pl. *"it's"* egy szó, *"it is"* két szó).

A feladatlapban nem jelölt források a javítási-értékelési útmutatóban szerepelnek.

Task 1

- **Read the following questions and answers from the website of a youth hostel chain. The questions have been removed.**
- **Your task is to write the letters of the questions (A-M) next to the appropriate numbers (1- 9).**
- **There are <u>two extra questions</u> that you do not need.**
- **Write the letters in the white boxes as in the example *(0)*.**

DEALING WITH STRESS IN SPORTS

Sports are a great way to have fun while staying fit. Sports also ***(0)*** _____ like working as a team, overcoming challenges or **(10)** _____ .

But it's not always easy to keep it together when it feels like winning is everything. Learning to deal with the stress that **(11)** _____ can help you perform your best.

Competing always leads to some stress, which can be good. A little stress even helps the body face a challenge. But too much stress can take the fun out of a sport and **(12)** _____ to perform. Making some changes can help, such as changing your focus from **(13)** _____ .

Anyway, there will always be some stress in sports, so it's important to know how to deal with it. Trying different ways during practice helps you to know what will **(14)** _____ . You can try deep breathing or muscle relaxation. Take a deep breath and hold it in for about five seconds, then **(15)** _____ . Repeat five times. Then tense a group of muscles tightly and keep them tense for about five seconds, then release. After **(16)** _____ , move to a different muscle group. Practising mindfulness may also help: **(17)** _____ instead of worrying about the future or the past.

Sports are about staying active, making friends and above all, having fun. By keeping that as the priority, you can learn to handle the stress that is a natural part of competition.

Task 3

- **Read this article about innovation at the LEGO Company.**
- **Some sentences have been left out from the text.**
- **Your task is to reconstruct the text by filling in the gaps (18-22) from the list (A-H) below.**
- **Write the letters in the white boxes next to the numbers as in the example *(0)*.**

LEGO DEVELOPS ECO-FRIENDLY BRICKS

The LEGO Group has been working on a way to make LEGO bricks out of recycled plastic. ***(0)*** _____

The plastic building toys have been around since the 1950s. The bricks click together firmly, allowing users to build things that don't fall apart easily. **(18)** _____

LEGO bricks are made from a kind of plastic called ABS. ABS plastic makes the bricks very tough, and gives them great clutch power. **(19)** _____

Since 2015, LEGO has been trying to make their products more earth-friendly. In 2018, it began producing elements from plant-based bioplastic, which is perfect for making smaller, softer pieces such as trees or leaves. **(20)** _____

The company has tested over 250 different ways of creating LEGO bricks from recycled plastic. The goal is to make bricks out of PET plastic, which can be found in bottles. **(21)** _____

Now, the company says they've found a way to make a good 2×4 brick from PET. It is a big challenge to make good bricks from recycled plastic, because PET is softer than ABS. The most important step was finding a way of making PET plastic tougher and giving it better clutch power. **(22)** _____

The recycled bricks will go through many different tests, which will take at least a year before kids will be able to play with them.

0)	***C***

A) As a result, it did not meet the company's strict safety requirements.

B) A recycled one-litre plastic bottle could make about ten 2×4 LEGO bricks.

18)		

~~***C) The company's goal is to make all of their main products out of recycled materials by 2030.***~~

D) But sadly, it can't be recycled, and it takes an extremely long time to break down.

19)		

E) However, it is not suitable for making harder, stronger elements, like bricks.

20)		

F) The company calls this quality of the bricks "clutch power".

G) The next step is to figure out a way to add colour to the bricks – right now they're just white.

21)		

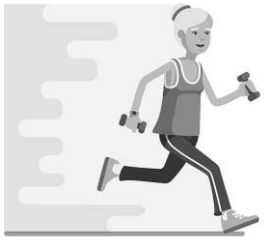

H) This involves packaging its products in recyclable paper rather than single-use plastic.

Task 4

- **Read this article about two successful elderly people and then read the statements (23-30) following it.**
- **Mark a statement <u>A</u> if it is true according to the article, mark it <u>B</u> if it is false, and mark it <u>C</u> if there isn't enough information in the text to decide if it is true or not.**
- **Write the letters in the white boxes next to the numbers as in the example *(0)*.**
- **A = TRUE B = FALSE C = THE TEXT DOES NOT SAY**

NEVER TOO OLD: AMAZING SENIORS SET RECORDS

The inspiring stories of two amazing elderly people are a good reminder that you're never too old to do something incredible.

Dr Manfred Steiner didn't really need another Ph.D. degree. After all, he already had two. He had been a professor of medicine for years. But after Dr Steiner retired from his career in medicine, he realized he finally had time to do something he'd always wanted to do – study physics.

At first, he just took a few classes, but after a while, he finished enough classes to complete a regular college degree. That's when he decided to get a Ph.D. It took him a long time, but at age 89, Dr Steiner finally earned his physics Ph.D. He encourages young people who have a dream to "follow that dream. Don't give up on it."

Julia "Hurricane" Hawkins set a new world record by running the 100-meter dash in just over 62 seconds, which was a slightly slower time than she'd hoped for. If that doesn't sound like a record to you, keep in mind that Ms Hawkins is 105 years old. Before this year, there wasn't even a category for female runners over the age of 104. They had to create one for Ms Hawkins, so at age 105, she was in a new age category all her own.

Running isn't Ms Hawkins' main sport – she was a lifelong cyclist before losing interest in this sport late in life because of a lack of competition. She took up running at 100 and soon set her first world record.

Encouraging others to be active is a big part of what keeps Ms Hawkins running. "My message to others," she says, "is that you have to stay active if you want to be healthy and happy as you age."

0) *Dr Steiner's degree in physics is his third Ph.D.*

23) Dr Steiner hadn't been interested in physics before he retired.

24) Dr Steiner's regrets studying medicine when he was younger.

25) When Dr Steiner started taking physics classes, he had no definite plan to get a Ph.D. in the end.

26) Julia Hawkins wanted to finish the race with a better result.

27) Ms Hawkins was the only runner in her category.

28) The senior running competition is held every two years.

29) Ms Hawkins gave up cycling because she had got injured.

30) Julia Hawkins did not use to do running when she was young.

ARBOR DAY

Arbor Day – which means "tree" day – is a holiday that celebrates trees. It's ***(0)*** **_____** ***(usual)*** held on the last Friday in April in the United States.

The origins of Arbor Day date back to the early 1870s in Nebraska City. Julius Sterling Morton, a **(9) _____ (journal)**, moved to the state with his wife in 1854. They bought 160 acres of treeless land in Nebraska City and planted a wide variety of trees.

Morton also became the editor of the state's first newspaper, *Nebraska City News*, which was a perfect platform for him to spread his **(10) _____ (know)** of trees and to stress their ecological **(11) _____ (important)** to Nebraska.

On January 7, 1872, Morton proposed a day that would encourage all Nebraskans to plant trees in their **(12) _____ (neighbor)**. The first Arbor Day occurred on April 10, 1872. It was a big success: **(13) _____ (near)** 1 million trees were planted.

The tradition began to spread **(14) _____ (fast)** and by 1885, Arbor Day had become an official holiday in Nebraska. The date was **(15) _____ (change)** to April 22 to honor Morton's birthday and because of its ideal weather for **(16) _____ (plant)** trees.

Within 20 years, the holiday was celebrated in every American state.

- **There is an example *(0)* at the beginning.**

FINDING LOCATIONS EASILY

Traditional addresses don't work. That's the argument of London startup *what3words*, which says we often ***(0)*** **_____** difficulty giving and finding addresses.

The company's answer was to divide the world **(17)** **_____** 57 trillion squares and give them each a unique combination of three words, that is, a 3-word address.

The idea came from *what3words* director Chris Sheldrick, **(18)** **_____** former live music organizer. He often got annoyed when he needed to drop off equipment somewhere or tell a band where **(19)** **_____** go. Addresses either didn't exist, they weren't accurate enough, **(20)** **_____** they were difficult to communicate.

Sheldrick started using GPS coordinates, but they were difficult to remember or share. Then, **(21)** **_____** day, he and a friend found a solution. There was a dictionary on the table, and they wondered how many different words **(22)** **_____** would take to build a system using words. The answer is about 40,000, put together in groups of three.

It works **(23)** **_____** this: Say you want to meet a friend at the mall, but there are lots of entrances and no easy way to explain **(24)** **_____** you are. By using the *what3words* mapping app, you can mark out the specific entrance, tap on a virtual square and you will get a phrase fixed to that location, like "caramel.kingdom.signature" — a real phrase tied to a location in Hong Kong. The app then lets you open up the address in another mapping provider, **(25)** **_____** as Google Maps, which can direct you there.

Welcome to the Listening component of the Matura Examination.

The listening material and the instructions are recorded on this CD, and the tasks and instructions are printed in your test booklet.

- There will be three tasks, and every recording will be played twice.
- The tasks will begin with some music, and then you will hear (and you can also read) the instructions to the task.
- This will be followed by a silent period on the CD in order to give you some time to look at the task in your test booklet before hearing the text.
- Then we will play the recording in one piece.
- After that, we will play the recording for the second time, but now in shorter sections and with breaks between the sections in order to give you enough time to write down your answers.

Please note that the first item in each task (marked with a tick [✓]) is always an example.

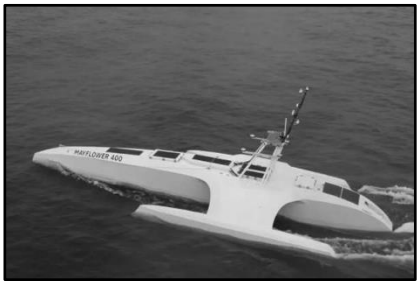

The whole test is exactly 30 minutes long.

Good luck!

Task 2

You have read the following post on an Internet forum called *Pet Forum*:

> Hi everyone,
> I've wanted my own dog forever, but I guess haven't had the courage to get one yet. My sister's friend got a puppy recently and cried every day for the first month because she was so overwhelmed – I guess I'm scared that would happen to me! I want to make sure I'm ready. I know they are adorable and all, but all those duties, you know what I'm talking about. Or maybe a dog is too much of a commitment and I should go for a different pet – a cat maybe (at least I wouldn't have to walk them) or a cute little hamster family?
> A little info about me:
> I'm 17, living at home with my family and going to school. I do athletics competitively and go to a theatre group twice a week.
> Any advice would be very helpful. Thanks!!
> Mark

Write a comment of 100-120 words to Mark's post in which you tell him

- if you have (ever had) a pet,
- what advantages keeping a pet has,
- what sort of pet he should have,
- what duties you think a pet-owner has.

Begin your comment like this:
